Facsimile (08) 9377 2575 A.C.N 009 026 386. ABN 18 340 289 669

THIS PRODUCT IS NOT A HAZARDOUS SUBSTANCE AS DEFINED BY SAFE WORK AUSTRALIA

SECTION 1 - CHEMICAL PRODUCT AND COMPANY INFORMATION

| Product Name: | FIBRETAK |
|--|---|
| Manufacture Code: | FBTK |
| Emergency Telephone No: | (08) 9378 2022 |
| | 0408 940 669 |
| | (08) 9381 5052 |
| Email: | accounts@calmarc.com.au |
| Creation Date: | 16 June 2003 |
| SDS Responsibility: | Calmarc Chemical's Technical Sales (08) 9378 2022 |
| | 0408 940 669 |
| Other Information: | This SDS summarises our best knowledge of the health and |
| | safety hazard information of the product and how to safely handle |
| | and use the product in the workplace. Each user should read this |
| | SDS and consider the information in the context of how the |
| | product will be handled and used in the workplace including in |
| | conjunction with other products. If clarification of further |
| | information is needed to ensure that an appropriate risk |
| | assessment can be made, the user should contact this company. |
| | Our responsibilities for products sold are subject to our standard |
| | terms and conditions. A copy of our terms and conditions and |
| | technical information pamphlets are available upon request. |
| | <u>DISCLAIMER</u> |
| | This information is based on the present level of knowledge about |
| | safety requirements not specific properties. The listed data is |
| | therefore subject to change and revision without notice and cannot |
| | be guaranteed. No warranty expressed or implied is made as to |
| | accuracy, reliability or completeness of the detail in this document. |
| SECTION 2 – HAZARDS INFORMATION/EMERGENCY OVERVIEW | |

SECTION 2 – HAZARDS INFORMATION/EMERGENCY OVERVIEW

| Globally Harmonised System Hazard Classification | Not hazardous according to the criteria of the Globally Harmonised System of classification and labelling of Chemicals (GHS). |
|---|---|
| Hazard Category | None allocated. |
| Physical Data | Product is water based. |
| Use | Adhesive resin for adhering fibreglass mat to concrete, plaster, timber and prime coated metal. The FIBRETAK/fibreglass is then tiled or screeded on, or overcoated with ATTAFLEX or FLEXITEX for a waterproofing membrane. |
| Directions | Place a layer of FIBRETAK onto the substrate. Lay the fibreglass into the wet resin. Apply a coat of FIBRETAK over laid fibreglass and allow to dry clear before further treatments. |

16 GOONGARRIE ST, BAYSWATER W.A 6053. TELEPHONE : Bus. (08) 93782022 Mobile 0418 956 860 A/H (08) 9381 5052. Facsimile (08) 9377 2575 A.C.N 009 026 386. ABN 18 340 289 669

ACUTE HEALTH EFFECTS

| Swallowed | Effects unknown. Small quantities (a few mls) is unlikely to cause more than temporary discomfort. |
|------------------------|--|
| Еуе | Strong irritant. May cause damage to the eyes on prolonged exposure due to small residual of sodium hydroxide present. |
| Skin | May cause irritation. Repeated exposure may cause dermatitis to susceptible individuals due to degreasing effect of the surfactants present. |
| Inhalation | Possible nausea due to small amounts of styrene butadiene dimer. |
| Chronic | None known at this time. |
| SPECIAL HEALTH EFFECTS | |
| Environmental | Do not allow products to enter drinking water, rivers and streams as it may harm vegetation and wildlife. |

| SECTION 3 – COMPOSTION/INFORMATION ON INGREDIENTS | | |
|---|-----------|---------------|
| INGREDIENTS | CAS No. | CONCENTRATION |
| SBR Copolymer | | 30-60% |
| Water | 7732-18-5 | 30-60% |
| Other compounds and/or impurities | | to make 100% |

SECTION 4 – FIRST AID MEASURES

| Swallowed | For a conscious patient, rinse the mouth with water and give plenty of water to drink. Never give a drink to an unconscious person. |
|------------------------------------|---|
| Еуе | Flush eyes with copious amounts of water for 15 minutes with eyes open. |
| Skin | Wash off with soap and water. Remove any contaminated clothing. |
| Inhalation | Remove to fresh air. |
| Advice to Doctor | Treat as for polymerised acrylic resins dispersed in water in the form of an emulsion or treat symtomatically. |
| SECTION 5 – FIRE FIGHTING MEASURES | |

| Fire and Explosion | Wear self-contained breathing apparatus to avoid inhalation toxic smoke or fumes. |
|--------------------|--|
| Ventilation | Local exhaust and ventilation is recommended if used internally. Externally, normal air movement is usually sufficient. |

MANUFACTURING INDUSTRIAL CHEMISTS

16 GOONGARRIE ST, BAYSWATER W.A 6053. TELEPHONE : Bus. (08) 93782022 Mobile 0418 956 860 A/H (08) 9381 5052. Facsimile (08) 9377 2575 A.C.N 009 026 386. ABN 18 340 289 669

Earthing Earth the product container if there is a potential for state electricity build up. **Autoignition Temperature** Only ignites in the presence of a very strong ignition source and only after the water is removed. Source of Ignition Keep away from open flame, sparks, high sources of heat transmission and static electricity discharge. Flash Point Not applicable - aqueous product. **Extinguishing Media** Use carbon dioxide, dry chemical or B.C.F. fire extinguishers. **Special Fire** None **Fighting Procedures Decomposition Products** Carbon monoxide, carbon dioxide, styrene gases and vapours. Hazardous polymerisation will not occur. Upper Explosive Limit N/A Lower Explosive Limit N/A Reactivity Product may coagulate if in contact with flocculants, e.g. organic solvents and/or salt solutions. **Protection of Firefighters** Wear safety boots, non-flammable overalls, gloves, safety hat (with face shield) or firefighter helmet (preferred), goggles and self-contained breathing apparatus. All skin areas should be covered. Block all drains and water courses to inhibit any spillage into them. **SECTION 6 – ACCIDENTAL RELEASE MEASURES**

Spills and DisposalSpills should be contained and absorbed with sand, vermiculite,
attapulgite or inert material. Place the contaminated material in a
plastic or metal container and dispose of it at an industrial waste
site. Do not allow the product to enter drains or waterways. Small
amounts can cause high turbidity.Cleaning ProtectionOpen up the area where spill or leak has occurred to ventilate
direct vapours away.
Attach earth leak cables to any containers in the spill area. Have
absorbents, such as vermiculate, attapulgite, carboard or sand on
hand to control flow of the spilled mobile product. Use wet

SECTION 7 – HANDLING AND STORAGE

vacuum cleaner or mop to collect any small spills.

Protection against Keep containers on site away from sources of heat, sparks and earth if necessary, for static electricity. Use secure locked storage if possible and have forced or natural ventilation over worksite or storage areas.

 Packages
 The product is supplied in high density polypropylene bottles, jerry cans or cubes. Packaging group type II and III.

StorageAfter decanting from containers, tightly reseal containers and
store immediately. Store away from food stuffs. Store in a cool,
dry, well-ventilated area under cover between 5°C and 30°C.
Store containers away from any heat sources, sparks. Do not
store with oxidising agents or acids.

SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures Apply in a well-ventilated area either externally or internally.

Airborne Exposure Limits No airborne exposure limits have been established. A blanket limit of 10 mg/m³ for dusts or mists is used in thes cases.

PERSONAL PROTECTIVE EQUIPMENT

| Eye/Face Protection | Wear safety glasses, goggles or preferably a face shield. In enclosed non-ventilated areas, an air line to full head cover helmet with mask may be necessary. Breathing mask to be suitable for organic vapours. |
|----------------------|---|
| Skin/Body Protection | Wear vinyl, latex or PVC gloves for 8-hour day. Short-term protection (1 hour), natural rubber is suitable. Wear full coverall clothing protection with safety boots. |
| Hygiene Measure | Wash hands before meal breaks and at the end of a work period. Any contaminated clothing should be removed. Avoid inhaling any fumes on a long-term basis. |

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

| Substance | Formulation of chemicals |
|------------------|--|
| Physical Form | Medium viscosity liquid |
| Colour | Milky white |
| Odour | Slightly pungent at close proximity |
| рН | 8-10 |
| Boiling Point | 100°C at 760 mmHg |
| Melting Point | Not Applicable |
| Flash Point | Not Applicable |
| Freezing Point | 0°C |
| Autoignition | Only ignites in the presence of a very strong ignition source and only after the water is removed. |
| Water Solubility | Miscible in liquid form. Insoluble as a dried film. |
| Specific Gravity | 1.05 g/cc |
| Corrosivity | Not Corrosive |

CALMARC

SECTION 10 - STABILITY AND REACTIVITY

Stability Stable as supplied at normal (average) atmospheric temperatures.

Reactivity Product may coagulate if in contact with floculants, for example, organic solvents and/or solvent solutions.

Decomposition Products Carbon monoxide, carbon dioxide, nitrogen gases and vapours. Hazardous polymerisation will not occur.

SECTION 11 – TOXICOLOGICAL INFORMATION

None Known.

SECTION 12 – ECOLOGICAL INFORMATION

None Known.

SECTION 13 – DISPOSAL CONSIDERATIONS

Waste Disposal

Allow absorbents to dry out in the open atmosphere. Contaminated product should be reprocessed by an approved organisation. Place any dried absorbent in plastic bags, seal and dispose at an approved site.

SECTION 14 – TRANSPORT INFORMATION

Shipping Name Other Names Dangerous Goods Code Subsidiary Risk **UN Number** Packaging Group I.E.R.G. No. HAZCHEM

Fibretak Synthetic Copolymer None None None II or III None None

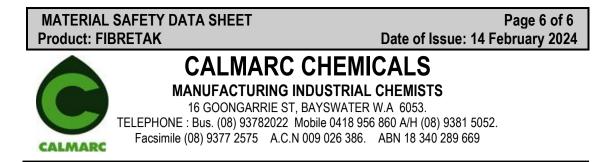

SECTION 15 – REGULATORY INFORMATION

None Known.

SECTION 16 – OTHER INFORMATION

The details in this document are based on the state of our knowledge at the time of revision. They do not constitute an assurance of the described product properties in terms of statutory warranty requirements.

The providing of this document to a recipient does not relieve the recipient of his or her responsibility toward compliance with all laws and stipulations applicable to the product.

Directions for use are on the label and brochure describing Fibretak.
